SAECF

THE SOUTH AUSTRALIAN EARLY COMMERCIALISATION FUND

techinsa.com.au/saecf

What is the SAECF?

The South Australian Early Commercialisation Fund (SAECF) is a competitive grant program established by the South Australian Government to assist entrepreneurs and innovative organisations looking to commercialise novel products and services.

Who is eligible?

The program is open to South Australian based early-stage projects and start-up companies to assist them to achieve key milestones and develop their businesses. The SAECF grant will also assist businesses based interstate or overseas intending to commercialise and develop their project in South Australia.

Projects or companies focused on high-technology are eligible, for example, high-tech manufacturing, innovative intellectual property, knowledge-intensive services, etc.

COMMERCIALISING SOUTH AUSTRALIAN RESEARCH AND INNOVATION

The South Australian Early Commercialisation Fund can provide grants up to a total of \$500,000 for proof of concept, product development or early commercialisation stages. Matched funding is required.

How much can I apply for?

Applicants may apply for grants up to a maximum of \$500,000 from the SAECF. Funding will be provided in tranches and will be subject to achievement of project milestones. Applications are accepted all year-round. Matched funding is required.

TechInSA

TechInSA is the South Australian Government's innovation agency, tasked with helping to grow the high-tech sector in South Australia. TechInSA administers the SAECF grants program and provides business assistance to early stage companies and entrepreneurs. It also manages two business facilities based at the Thebarton Technology Precinct.

How to apply and further information

1. Visit techinsa.com.au/saecf and read the SAECF Guidelines
2. Complete and submit the Expression of Interest form
3. TechInSA will contact you to advise whether or not your application will progress
